

Manulife *Vitality*: Rick Z. Member Story

The word that would best describe me before the Manulife *Vitality* program is “unmotivated”.

The word that would best describe me after the Manulife *Vitality* program is “confident”.

In my culture, health is very important for me and all Chinese people.

We set a good example for our children by eating healthy and staying active.

In the past it was difficult.

After the birth of my child, I was tired...

...because my wife and I were spending a lot of time taking care of our child.

I didn't always watch what I ate or have time to work out.

My insurance broker first told me about the Manulife *Vitality* program.

He suggested this wonderful life insurance plan, which meets all my needs.

At first, I was convinced this program was perfect for me, because I had always been an active person.

The Manulife *Vitality* program's short-term goals helped a lot.

The Apple Watch helps, because it gives me information about my activity and health.

The Manulife *Vitality* program has some great benefits.

My premiums will decrease if I do well.

Other benefits, like discounts and gift cards, also really motivate me.

My family noticed changes in me, because I lost weight, I'm healthier, and I have more energy than before.

In the short term, I would like to stay healthy and keep my Vitality Age as low as possible.

I would also like to maintain my strength and endurance.

Overall, I made a lot of improvements in my life.
