

There is nothing more important in life than good health. And good health cannot be taken for granted. If you receive a devastating diagnosis for a critical or life-threatening condition, you likely have questions, concerns, and uncertainty.

Statistically, 1 in 12 adult patients is misdiagnosed. WorldCare's remote medical second opinion service exclusively focuses on critical illnesses and enables your case to be reviewed by top experts. This valued service is available at no additional cost to you through your insurer or employer. The process is simple:

Call your insurer or benefits manager to initiate service. A WorldCare nurse case manager will help you collect your medical records. Your diagnosis will be reviewed by a team of medical specialists and sub-specialists with deep expertise in your medical condition from top ranked WorldCare Consortium medical centers in the U.S.

Our specialist teams see hundreds of similar cases regularly and have access to innovative research that can be game-changing. They will thoroughly review your case and provide an in-depth second opinion report with details on your diagnosis and a roadmap for optimal treatment.

With over 25 years of experience, WorldCare is committed to helping our members get reliable medical information to make crucial medical decisions with greater confidence and peace of mind.
