\* This plan will cease to provide coverage for COVID-19 related emergency medical costs if the government changes the travel advisory to "Avoid Non-Essential Travel" for your travel destination due to COVID-19.

<sup>1</sup> A pre-existing medical condition is considered stable when all of the following statements are true:

- There has not been any new treatment prescribed or recommended, or change(s) to existing treatment (including a stoppage in treatment), and
- There has not been any change in medication, or any recommendation or starting of a new prescription drug, and
- The medical condition has not become worse, and
- There have not been any new, more frequent or more severe symptoms, and
- There has been no hospitalization or referral to a specialist, and
- There have not been any tests, investigation or treatment recommended, but not yet complete, nor any outstanding test results, and
- There is no planned or pending treatment.

<sup>2</sup> **Quarantine benefit exclusions:** We do not pay any benefits for quarantine or self-isolation in Canada as mandated by any government. We will not provide coverage for any pre-paid, unused travel arrangements. We will not cover any expenses you incur when you or your travel companion are denied entry to a country or region included in your trip when, before your departure date, there was a foreign government and/or regional travel guideline restricting entry of Canadian residents or guidelines that require self-isolation or quarantine for a specific period of time during your trip.

<sup>3</sup> **Family coverage** is available for 2 adults from the same family and their dependent children or grandchildren. All coverages start and end on the same dates. Consider the family coverage option to cover your whole family under 1 policy with a single purchase. For example, family coverage may be more suitable for an All-Inclusive plan when your family of 4 or more is travelling together. If you are buying an Emergency Medical plan and your family of 3 or more is travelling together, you may want to consider family coverage. Please consult the policy for eligibility.

<sup>4</sup> The "Avoid Non-essential Travel" Government Travel Advisory Rider for Emergency Medical Insurance Only is an add-on rider that offers emergency medical coverage when – before your departure date – the Government of Canada issues an advisory to avoid non-essential travel to the country or region you are visiting because of a specific virus or disease.

<sup>5</sup> **Cancel for Any Reason (CFAR) Rider for Trip Cancellation Insurance:** If the reason for your cancellation is not a covered event under your policy, you may submit a claim to request reimbursement for up to 50% of the covered amount you purchased (no maximum) for the pre-paid portion of your trip that is non-refundable.

Conditions, limitations, and exclusions apply. Review the policy for full details. Benefits and Plans subject to change without notice. All dollar amounts are in Canadian dollars.
